Singing with Jazz Trio—Registration & Song Selection

Registration and Song Selection Process

1. Registration deadline is two weeks before the start of each session. To register, email the following information to erik@jazznightschool.com and south@jazznightschool.com:
 - Select your song requests from the Jazz Night School Singing with Jazz Trio “Approved Song List” and tell us what keys they need to be in, or tell us if you need help figuring out the key(s). You may reference recordings that you know work for you.
 - If vocalists want to request a song not on the list, please submit the request along with any model “vocalist with jazz trio” recordings and chart(s) you may have or can find—if you have neither, the Music Librarian will look for acceptable model recording(s) and charts for the Music Director’s consideration—the song may or may not be accepted.
 - Please also submit alternate songs from the approved list.
2. Payment for the Singing with Jazz Trio class should accompany your song requests submission.
3. We will strive to notify you of your song selections one week before the start of class.
4. If vocalists have difficulty selecting songs, we can help or provide assignments—please contact the Music Librarian if you need this assistance.
5. Note: Changing song selections after class begins is discouraged as it provides less time for you and the trio to learn the music, and it can cause others to not get their fair share of time.

Approved Song List

Available online at http://www.jazznightschool.com/jazz_school_vocalist_songs.php, the approved song list is comprised of songs that have model “vocalist with jazz trio” recordings available (usually in the key of the chart) and have charts available meeting the following criteria:

- Use jazz chord progressions
- Are in vocal keys (some exceptions will be accepted, and transpositions provided)
- Have lyrics included (some exceptions will be accepted)

Decision to accept a song request, and/or to add a song to the Approved Song List will be made by the Music Librarian and Music Director.

Music Librarian

The Music Librarian (South Steucke) manages the Approved Song List and finds charts and relevant recordings of vocalists with jazz trio. As mentioned above, the Music Librarian is also happy to help vocalists look for song ideas.

Custom Charts

No “Custom Chart” service will be available at this time. Time-and-materials based service will be offered in the future.
